Sludge Remover Bacteria Water Soluble Packets

SRB12 • SRB24 • SRB80 • SRB160

Features

EasyPro's family of water treatment products is designed to work together to achieve the natural ecological balance your pond needs to maintain clean, clear water.

EasyPro Sludge Remover Bacteria contains a proven blend of enzyme producing pond bacteria which "naturally" reduces odor causing, decomposing organic debris and muck. This product also contains barley straw powder which helps keep pond water clean.

Water soluble packets simply dissolve in the water for easy application!

- Reduces unpleasant odors and murky water caused by organic wastes
- Reduces organic bottom sludge and muck
- Reduces problem causing nitrate and phosphate
- Reduces toxic ammonia and nitrite
- Safe for use arounds pets and wildlife
- Maintains a healthy, balanced ecosystem and reduces pond maintenance
- Works in water temperatures down to 45ºF
- Also avaliable in one ounce blocks
- Ideal for use with All Season Bacteria

Eco-Friendly

1 Packet per 1,000 gallons

MADE IN THE USA

Directions for Use

For maintenance applications:

- Apply one 1 oz. water soluble packet per 1,000 gallons of water once a week

For heavy sludge applications:

- Apply two 1 oz. water soluble packets per 1,000 gallons of water once a week until clear

For large pond applications:

- Apply 15-20 1 oz. water soluble packets per 1/4 acre of water every two weeks

Heavy sludge applications can be applied at a double dose until desired results are achieved.

KEEP OUT OF REACH OF CHILDREN

Safe for fish & aquatic life
